A second location, north of the main trail off of Letterman Lane will be used to provide an informal canoe/kayak launch site for the public and Village-owned property will be used for grass-only parking.

Architects/engineers have drafted concept plans showing the proposed location of the main trail that will be coincident over much of the same land as where the South End Drainage area is, and where the Village already has easements. The Village is in the process of securing easements with Shaul Farms, and F.A. Guernsey. The Village already has a signed license to cross National Grid lands at Rainbow Lane. The application includes a concept map (attached), and Part I of the Short Environmental Assessment Form.
