

Help Make Schoharie Count

The 2020 Census is underway. Did you know that an accurate census count for Schoharie County is an important need for many different programs? The Census results help determine how Federal funds flow into our County for the next decade. These funds help many communities through various grants, school lunches, road repair, emergency services, and programs for families with need.

A person at each address should fill out the Census information. This only takes a few minutes to do online. As soon as possible, visit www.2020census.gov. If you do not fill out your information online, your address will be visited by census staff later this summer. Therefore, filling out your information online has many benefits including lessening Federal expenses by not having paid staff visit your address. This year, for your best health and others, limiting close contact is important. Avoid a personal visit and do your part - fill in your 2020 Census information online.

If you need assistance filling out the online information please contact your local library branch, Schoharie County Community Action Program 518-234-2568, or Shane Nickle or Zach Thompson at the County Office of Community Development Services 518-295-8770. Assistance is limited to phone only until further notice.
