RE: Village of Schoharie  
Water System Improvement Project  
**Orchard St. and Depot Lane**

Dear Water Customer:

As you may know, the Village is working on a water system improvement project. The current construction contract involves work on Orchard St. and Depot Lane.

On Orchard St., an undersized asbestos-cement water main will be replaced from Bridge St. to Fair St., and all water services will be replaced from the main to the property line.

On Depot Lane, a new looping main will be constructed from the Letterman Lane intersection to the existing main on the northern end of Depot Lane. The Depot Lane work also includes installation of new valves at the Rte. 30/Depot Lane intersection (southern end).

The water main work is anticipated to start in June 2024, but some preparatory work may be start in May after Memorial Day. Note that the actual duration of the work is only expected to be about 6-8 weeks, but the final restoration work may extend into the Fall months.

As part of the work, there will be unavoidable times when the water system will need to be temporarily shut-down for short durations. If your water service will be affected, you will receive a separate notice.

If you have any questions or concerns, please feel free to contact me:

Ken Bernhardt, DPW Supt.  
Village of Schoharie
