Workshop Session Village of Schoharie

April 29, 2026. Meeting called to order at 4:55 p.m.

In attendance: Trustee Jeff Palmer, Trustee Sal Medak, Dep. Mayor Peter Johnson,

Mayor Colleen Henry

Discussed the bids received for the Parrott House Fire suppression line that will flow from curb stop to within 5' of the Parrott House building, the lowest bid received by Tweedie Construction and after discussion with Mr. Mike Harrington at Lamont Engineers this is reasonable and acceptable. The county will be notified at their Highway Meeting scheduled for May 5th for the need of a temporary easement (as the county property is adjacent to the Parrott House for 'staging' equipment during construction). All paperwork (lateral access agreement already signed by Mayor) will be adopted at May/June board meeting

Mayor notified board members the need to hire another DPW worker and p/t village office employee in the near future.

Mayor is meeting with Nancy Liddle at Schoharie BOCES for assistance in hiring

Continue to await Schoharie Promotional Assoc. utility pole numbers to follow through with outlet request to National Grid

No update on DRI announcement to date

Office closed from May 4-May 8 Clerk/Treasurer on vacation

SCVOA meeting hosted by Schoharie is 5/27/26 seeking a locale to host and a caterer
