Utility Notification

Water and Sewer customers:

The Village is in the process of changing your water meter. Soon DPW Superintendent will be stopping by to make arrangements to change your water meter.

The reason for the change is that after approximately 10 years the battery on the meter that transmits the signal to the receiver stops working, **however the meter itself still works**. If your meter's battery has died, you probably have received minimal water invoices (\$169.23) with 0 usage recorded on the invoice. Once the meter is changed the final number on the meter is given to the Clerk and she then produces your final invoice on that meter. If your meter has not been read over several quarters, this can result in a much larger invoice than you normally would have.

If you have any questions, please contact the Clerk directly. If you need to set up a payment plan, this can also be arranged.

Thank you,

Leslie J. Price
Clerk/Treasurer
